EDUCATION

Spartanburg Community College, South Carolina — *Computer Science, Programming (and Database) - Online / Ongoing*

Udemy Coding Bootcamps, Online — *Computer Science*

- **Complete Python Bootcamp (Ongoing)**

- **Python for Machine Learning & Data Science (Ongoing)**

MAIN PROJECTS

Fembot (v3.1.0) –
A two year ongoing and continuously maintained Python project that features a working database (SQLite), usage of several APIs including the Discord API (built via Discord.py). The project aims to be a general purpose server bot for the users of a server with many features that are detailed via the Fembot Wiki.

This project is tracked and updated via GitHub, and features near 24/7 uptime as I host it personally via an in-home server.
